## Module 11 Wrap-up and final questions

Pilot Development Day  
Delivering Patient Safety in your Projects

1<sup>st</sup> February 2008

NHS  
National Patient Safety Agency

MANAGING RISK  
DNV

WORKING TIME DIRECTIVE

NHS  
National Workforce Projects

### The objective of the day

- To help you see how you can effectively incorporate Patient Safety into your projects so that:
  - You design out current patient safety risks
  - Assure that the new ways of working do not unintentionally introduce an unacceptable level of Patient Safety risk
- In this way to support you in:
  - Getting Patient Safety considered at the right levels in your organisation throughout the project (from the top – board / project board – to the bottom)
  - Overcoming any perceptions that all new ways of working are by definition “unsafe” or “less safe”
  - Implementing solutions which are “acceptably” safe

National Patient Safety Agency

MANAGING RISK  
DNV

## Training approach

- Style of day is workshops
  - Learning through application and sharing of experiences
- This is “awareness training” (not expert training) to help you:
  - In planning and managing to deliver Patient Safety with your project
